Tentative Syllabus			
Week	Topic	Lab	Assignment
1 (9/18)	Impact of digital technology	Brief Intro	
2 (9/25)	Computer Hardware and Digital Media	1. learn history, conceptual structure and computer organizations 2. study the state-of-the-art information technology	
3 (10/2)	<b>Holiday</b>		
4 (10/9)	<b>Holiday</b>		
5 (10/16)	Operating Systems and Internet *Online Session: Intro to Social Technology by Prof. Hsiao	MS Excel Advanced Functions	
6 (10/23)	Software Development *Online Session: Fake News in Social Media by Prof. Su	MS Word Advanced	
7 (10/30)	Networking Standard *Online Session: Data Visualization by Prof. Hsiao	1. understand the innovative features of intelligent systems and computer applications 2. study the principles and learn from practical cases	
8 (11/6)	Digital Security and Privacy *Online Session: Introduction to AI by Prof. Ku		
9 (11/13)	AI and Big Data *Online Session: Algorithmic Governance by Prof. Chen	Personal Website II	HW-1.2 (5%) Personal Website
10 (11/20)	<b>Midterm (30%)</b>		Final Project Topic & Team Members

9

9 (11/13)	AI and Big Data *Online Session: Algorithmic Governance by Prof. Chen	Personal Website II	HW-1.2 (5%) Personal Website
10 (11/20)	<b>Midterm (30%)</b>		Final Project Topic & Team Members
11 (11/27)	Programming Language: HTML I	1. develop your personal website and use it as an online warehouse 2. gain experience in programming languages through lab and assignment	
12 (12/4)	Programming Language: HTML II & CSS I		
13 (12/11)	Programming Language: CSS II		
14 (12/18)	Programming Language: JavaScript I	JavaScript I	HW-5 (5%) JS Exercise
15 (12/25)	Programming Language: JavaScript II	JavaScript II	HW-6 (5%) JS Exercise
16 (1/1)	<b>Holiday</b>	apply your knowledge into the final group project	
17 (1/8)	<b>Demo Day- Final Project Presentation (35%)</b>		Up to 4 students
18 (1/15)	<b>Winter Break</b>		

10

## Grading

Homework 35% (6 homework)

- Personal website: 10 pts
- HTML\*2, CSS\*1 and JavaScript\*2: 5 pts each

Midterm 30% (Nov. 20)

- Multiple choice questions, true/false questions
- Open questions

Final Group Project 35% (Jan. 8)

- Details shown on next page (submit your poster file by 12/30)

Course participation: 5%

- In case you are in the borderline (#urwelcome)

11

## Final Group Project- Presentation

1. Watch all five online videos
2. Find your teammates and form the team wisely
  - Up to 4 students
3. Discuss with teammates and pick up the potential topics
  - The proposed topics must be related to the videos
4. Submit your team info and the proposed topics by Nov. 20
  - First come first serve; prioritize and submit at least three topics
5. Demo day: final group presentation on Jan. 8
  - Provide your own opinions; cite your references- **DO NOT** copy and paste
  - Grade by the instructor, TAs and other groups
  - In-group evaluation: no free rider policy (#howdareyou)

12

## Suggested Textbooks

- Technology for Success:  
Computer Concepts  
(ISBN: 978-981-48-8803-5)

- Internet and World Wide Web  
How To Program (5th Edition)  
(ISBN: 978-0273764021)

## Academic Dishonesty

1. All graded work that you do for this course must be the sole result of your own efforts unless directed otherwise.
2. You may not do work for another student nor may any student copy or plagiarize someone else's work.
3. You may not assist, facilitate or enable another student's academic dishonesty, even if unintentional.
4. Severe penalties will be imposed on all parties involved, and any grade assigned due to academic dishonesty will not be dropped!
5. If you have any questions on this matter, contact the Instructor.

## Special Circumstances

The Instructor strongly endorses the University's policy on disabilities

- ▶ If you have a disability for which you are or may be requesting an accommodation, you are encouraged to contact the Instructor and Disability at the university

Feel free to let us (instructor or TAs) know if you need any help or if any questions arise

## Priority for taking this course

1. MIS department
2. Double major, minor, or programs
3. College of commerce
4. Others

In case you are not in the class roster yet..

-We are having TOO many students in 306005001

-Some of the students will need to take 306005011 (Fri. 1pm-4pm)

- ▶ If you have no class conflict and want to register this class, you will be asked to take 306005011
- ▶ Same materials, but you do not need to wake up in such early morning
- ▶ Great opportunities to advance your English (you will need it anyhow)

## Evolution of Instant Messaging

# 6

of the world's most used apps globally are primarily used for messaging  
And all the top apps have some sort of messaging functionality

Estimated and reported millions of monthly active users

Source: BI Intelligence

www.visualcapitalist.com/evolution-instant-messaging/

## E-COMMERCE

Payments and brands will be integrated into messaging, following the success of WeChat in China. Messaging app platforms will process payments, allow users to shop, and even connect them to the nearest taxi.

In December 2015, Facebook announced that users can now order Ubers or Lyfts through Messenger.

## CHATBOTS

At a recent developer conference, Facebook announced that it would make Messenger, a 900-million-user messaging app, into a full-fledged platform that allows businesses to communicate with users via chatbots.

Users spend the most time in messaging apps, so this concept seems a sensible way to connect users and businesses.

6:45pm

300m

## VR/AR INTEGRATION

The proliferation of virtual and augmented reality technology will allow users to message in new exciting ways. Forget text or video when you can see your friends in 3D in real-time across the country, or pin messages to real-world locations.

## INSTANT TRANSLATION

Imagine talking to people from foreign countries with language translated in real-time. It's now possible, and it's helping people learn languages, communicate with different cultures, and travel.

## P2P DECENTRALIZATION

Messages currently make their way through centralized servers. However, as privacy becomes more important, a movement is growing to decentralize messaging. Messages would be sent directly from user to user, without an intermediary.

## 課程簡介

Course Description

This course covers the history, conceptual structure, and computer organizations of computer science. The basic programming languages (e.g., HTML & CSS) will be introduced, which are designed to help students with little or no programming experience. In addition, the students will be asked to explore the principles, concepts and methodologies of the emerging technologies (such as Blockchain, IoT, humanoid robots, etc.) and present these topics in the final project presentation.

「本課程已獲執行本校深耕數位互動課程補助計畫（E計畫），因此課程於課後將課程影片分享至教學平台並供已註冊課程之網路學員參與，故請修課同學務必簽署「修課學生參與數位互動課程同意書」；至本課程旁聽之同學，原則上亦須簽署，因故未能或不願簽署者，進入課堂旁聽時，視為已瞭解同意書內容並已授權。網路學員於線上註冊並使用服務前，務必先閱讀同意書，當在線上點選「同意」鍵，視為已閱讀書，並願意遵守所有同意書之規範。」

本課程已加入數位互動課程補助計畫，  
同時有現場修課學員與網路學員。  
課後會把課程影片分享到教學平台供網路學員觀看，  
現場的聲音以及部份影像將會錄製進影片中，  
因此請各位簽署下一頁的授權同意書。

## 國立政治大學

## 修課學生參與數位互動課程 (E計畫) 同意書

- 一、本人同意與網路學員共同參與課程。
  - 二、本人同意並授權國立政治大學課程拍攝、使用、公開展示本人之肖像、姓名、聲音等。
  - 三、本人同意國立政治大學得不限地域、時間、方式，於課程中，無償利用本人於參與該課程中之所有著作。
  - 四、本人擔保就參與該課程中之所有著作，均已取得相關著作權人合法授權，或屬著作權法上合理使用，未侵害第三人之智慧財產權。
  - 五、本課程內容受著作權法保護，如有超越修習本課程自我學習以外之使用，應先依規定取得授權。
- ☐ 本人已閱讀並同意以上事項
